Wet room and bathroom installation franchise.

How does the franchise model work

The franchise fee is £10,000, The franchisee will be designing, supplying and managing the installation of new wet rooms and bathrooms. Successful franchise can expect a full return on their investment within one year (even after drawing a salary from the business). In fact, two and a half-wet room installations will cover the cost of the franchise.

You get instruction docs and videos for installing wooden and concrete floors, you get a comprehensive list of tools and materials needed. You also get a free accountancy package and quotation templates. You get onsite training and video calls for guidance.

The UK has an ageing population. Most of these people are infirm or disabled. They find it increasingly difficult to get into a bath. Many baths have been replaced with shower enclosures. But these still have a step up making it difficult to enter. Disability wet rooms are the most profitable while giving customer a better standard of living.

Wet rooms are becoming ever more popular as up market bathing. There are untold baths to be replaced giving you years of highly profitable work that you need NO SKILL for, just follow our training. Full ongoing support and backup. No qualifications required.

Potential £4,000 plus profit per week. Become a tradesman in the most lucrative trade. No showroom required as this is a liability, not an asset. Business rates and rent will kill a new business.

Join us for a profitable future. More info Wet room franchise • Apollo Design,

Thank you for considering us.
